

# DP DROP PACKER

WITH INTEGRATED CASE ERECTOR

With over 39 years of design and innovation, the Combi DP Drop Packer continues to evolve into one of the industry's most reliable and robust case packing machines. Built into the strongest frame and resulting in one of the smallest footprints in the industry, is a convenient walk-in case magazine and case erector. Setup and changeovers are simple and fast with our modular, slide-in packing heads and quick-clamp product lane guides.

Machines communicate easily and provide for more user friendly, informative screens. Smart programming and HMIs and PLCs with expanded graphics capabilities and greater memory offer quick diagnostics and can provide feedback on productivity.

# DP DROP PACKER

## STANDARD FEATURES:

- Integrated E-Series Case Erector
- Self-cleaning vacuum system with air purge
- Right or left hand execution
- One piece tubular welded frame with lifetime guarantee
- Stainless steel product guides for 3 lanes
- Repeatable tool less changeovers with pointers and scales
- Variable speed product conveyor with floor supports, side guides and controls
- Guarding with hinged doors and safety interlocks
- Allen-Bradley™ electrical controls and operator interface
- Standard one set of change parts
- 240v/3 ph/60 Hz/20 amp service

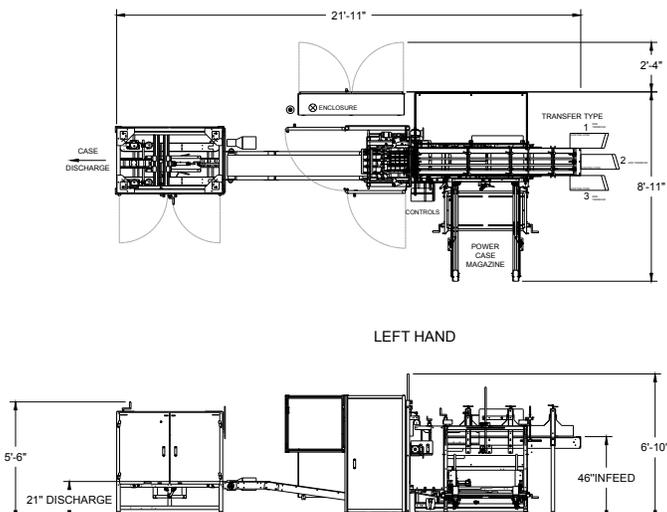

Changeovers are repeatable and toolless with pointers and digital scales
