

MARFLEX-M.J. MAILLIS POLAND Sp. z o.o. headquartered in Karczew, deals with production of PP/PET Straps, Stretch film, and distribution of final product packaging solution.

Among companies operating in our business, we tend to become a Leader thus gaining the opinion of a specialized supplier and a reliable business partner taking care of its customers.

Being social responsible company, we comply with Ethical Standards set forth in the Code of Ethics.

Our objective is to:

- fulfill the Customer's requirements by achieving and maintaining a high quality level in the Company's production of PP, PET Straps, Stretch foil, biodegradable stretch film as well as in services related to the distribution and maintenance of the end-of-line packaging solution,
- carry out business activities in a way friendly both to men and the natural environment,
- ensure safe working conditions for all the employees working either for the organization or under its supervision,
- eliminate or reduce to the absolute minimum any adverse production effects on the environment.

We meet our Policy Targets improving implemented Integrated Management System as pursuant to the international ISO9001, ISO14001 and OHSAS18001, SASO 2879 Standards by:

- fulfilling legal statutory and other interested parties requirements,
- efficient and timely processing of orders,
- researching the customer's level of satisfaction and permanent care for raising this level,
- improving processes by taking use of a based-on-risk analysis approach and the opportunities.
- taking use of appropriate technologies in successful manufacturing of products,
- developing our infrastructure and technical resources,
- conducting reasonable and environmentally safe waste management policy through segregating, safe storing, recycling or disposing,
- reducing electricity consumption,
- improving safe working methods and in particular constantly reducing work related threats,
- cooperation with raw materials, resources and services suppliers providing maintenance of high quality and environment standards as well as safe and ethical working conditions within the whole supply chain.

Every employee being engaged, obliged itself to set objective contributing to the increase of our Customers' satisfaction, work place safety and natural environment protection.

Joint activities will help US come to the desired success.
